We mean business.

Every region has innovative people who are contributing either to the business life of their communities, or to community improvement and leadership.

Are they receiving the support they need to be as effective as they can be?

In this workshop Mr Don Macke will be guiding participants as they respond to these three questions:

1. What kinds of Entrepreneurial Talent are present in the community?
2. How are these entrepreneurs doing?
3. What is the community doing or could be doing to grow these entrepreneurs?

EntruBIZ is proud to host Mr Don Macke; Don is the co-founder of the Center for Rural Entrepreneurship (CRE). Over the past 15 years Don and the CRE team have worked with rural communities both big and small across the United States of America to build on their unique assets (including their entrepreneurs).

This involves harnessing community leadership to develop entrepreneurial rural communities that are capable of responding creatively to the many challenges that rural communities face.
